

BaseModel

```
classDiagram
    class BaseModel {
    }
    class models_Source["models.Source"] {
    }
    models_Source --|> BaseModel
```

The diagram illustrates a class hierarchy. At the top is the 'BaseModel' class, represented by a white rectangle with a black border and three horizontal internal dividers. Below it is the 'models.Source' class, represented by a gray rectangle with a black border and three horizontal internal dividers. A blue arrow with a hollow triangular head points from the top of the 'models.Source' class to the bottom of the 'BaseModel' class, indicating that 'models.Source' inherits from 'BaseModel'.

models.Source
